

**echoSMs Workshop Agenda**  
**7 April 2025**  
**Reykjavik, Iceland**

**Co-chairs:** Gavin Macaulay (gavin.macaulay@aqualyd.nz)  
Michael Jech (michael.jech@noaa.gov)

**GitHub Site:** <https://github.com/ices-tools-dev/echoSMs>

**Agenda**

1. Introduction
2. Overview of objectives and reminder of meeting in 2024
3. Presentation of current progress
  - a. Overview, show code, what we have, example run(s)
4. Discussion on anatomical and morphological input to numerical and analytical models:
  - a. Data requirements
  - b. Data structures
  - c. Example datasets
  - d. Necessary metadata for long-term storage
  - e. Material properties (database)
5. Discussion on numerical models
  - a. Computational requirements
6. How to get input to echoSMs from others
  - a. Ways to incorporate external code in echoSMs
  - b. Repository for other scattering models? Or link to them?
  - c. Especially for more complex models...
7. Plans for coming year
